BOMBAY GAZETTE. EXTRAORDINARY.

THURSDAY, JANUARY 27th 1820.

We hasten to lay before our readers the contents, of the Ceylon Gazette of the 4th January announcing the arrival of the Alexander at Colombo from England the 18th August.

From the Hampshire Telegraph.
AUGUST 16, 1819.

LONDON,—AUG. 11.

The Paris papers of Sunday last arrived this morning. The King is stated to be now perfectly free from indisposition. On Saturday he heard Mass in the Chapel of St. Cloud, and afterwards transacted business with the Ministers of Marine and Finance.—Cambaceres has arrived in Paris.

The Duke de Feltre, late Minister at War, and often employed on missions by Napoleon, died so poor, that Louis XVIII. has settled 525l. pension on his widow.

The American Papers of the 10th ult. contain intelligence from Lima, relative to Lord Cochrane's blockading the port of Lima and the coast adjacent. They state that "this mighty Chief harbours and protects all deserters, sends his boats among the neutrals to persuade the men to run away, and even robs them of their boats as well as men."

Supplements to the London Gazettes of Saturday and Tuesday have been published, containing extracts from dispatches received at the East India House, from Fort William and Bombay. These extracts relate to the military operations of last year in India, but they are all on a small scale, and possess little interest.

American Papers to the 10th ult. have arrived.—They contain an evidently premature report of the ratification, by the King of Spain, of the Treaty transferring the Floridas to the United States.

It is gratifying to observe that trade assumes a more favourable aspect. The Cotton Manufacture has improved considerably—to the amount of 10 per cent. within a month—and in consequence of an improvement in the Continental, not the home demand.—Some Merchants and other respectable inhabitants of Leeds have postponed, for the present, the opening of a subscription to convey 130 croppers and their families, in all 500, to Canada, which was earnestly requested by the unhappy sufferers. This also is a proof of the hopes entertained of an improvement in trade.

The Funds experienced a considerable rise yesterday. At one o'clock Consols for Account were up to 72¼, and the Omnium was done at 5⅛.

The Grand Jury of the Country of Warwick on Monday, returned a true bill of indictment against Edmonds and Maddocks, of Birmingham, Major Cartwright, Wooler, the *Black Dwarf*, and Lewis, of Coventry, for a misdemeanour committed on the 12th July last, by electing Sir Charles Worsely Representative for Birmingham in Parliament.

Supplement to the London Gazette of Tuesday the 10th of August, published on Thursday August the [illegible] 1819.

LONDON,—AUGUST 13, 1819.

At a late hour last night, a mail from Flanders arrived in town. The Duke of Wellington reached Brussels on Saturday last. On the following day his Grace dined at Court, at the Palace of Laeken; and on Monday he set out for Spa and Cologne, whence he will continue his journey into Germany. There is reason to suppose (says an article from Brussels) that his Grace will be present at the Congress which is shortly to be opened at Carlsbad.—The King of Prussia passed through Dresden on the 1st instant, on his return from Tœplitz, after having an interview with the King of Saxony at Pilnitz.—The Papers continue to describe numerous arrests of persons in Nassau and other parts of Germany, who are sent to prison without any thing being suffered to transpire as to the cause of their detention.

PREFERMENTS.—The Rev. William Stanley Goddard, D. D. has been instituted to the Rectory of the Parish Church of Kingston, in the Isle of Wight, vacant by the death of Anthony William Glynn, Clerk, to which he was presented by Edmund J. SOUTHAMPTON.

AUGUST 14, 1819.

On Thursday and Yesterday we were in anxious hope the Prince Regent, in his Yacht, would come up our River, as far as the town: he was, yesterday, within three miles of the Pier.—The shores were lined with beauty and fashion, and the water with yachts and boats. Not the least gratifying sight was the Orphan Boys of the Royals Military Asylum, about 450, who with a most excellent band, marched down at noon to the Quay, in the most regular and orderly manner, in honour of the Regent's Birth-day.

No Monarch has ever been upon the Isle of Wight since the imprisonment of the unfortunate Charles at Carisbrooke Castle. King John was the only previous Monarch ever on the Island.

Southampton has regained all its former gaiety and bustle the number of nobility and gentry passing through, to and from the Isle of Wight is immense; as are also the departures and arrivals to and from France.

COLOMBO, 4th January 1220.

The Ship *Alexander*, which arrived here yesterday Evening, last from the Mauritius, which place she left on the 28th of November having brought intelligence that a disease of an alarming nature prevailed there among the slaves, we have much satisfaction in having it in our power to put the public in full possession of the real state of the case.

A Government notice dated Port Louis 27th November 1819 has reached us from which it appears that a disease which had excited much apprehension, but which was confined to Slaves and poor persons of Colour, had made its apperance there about the 19th of the month. The Governmt immediately ordered a Committee consisting of the principal members of the Medical Staff of the army, and of the resident French Physicians, to assemble and report on the subject. We have now before us Extracts from their report, and we can have no hesitation in pronouncing, from their tenor, as well as from the means of prevention and cure recommended, that the Disease in question is the same as that which, on the Continent of India, & in this Island, has been known by the name of "*Cholera Morbis*". The Committee are clear and decided that it is not Contagious; and in this respect, as indeed in almost all others relating to the

disease, they agree in what has fallen under the observation of the Medical men of this Island.

It may be necessary to observe, in order to prevent the circulation of false reports that the *Alexander* was this morning inspected, by a medical Officer, before any of her Passengers had landed; and that it was found that all on Board were in perfect health, and that they had no sickness of any kind among them since hey left the Mauritius.

LONDON MARKETS, August 17.

Cotton.—The demand for cotton in the early part of last week was brisk and extensive, the prices gradually improving; on Thursday, however, the request was checked by a declaration of the East India Company, 2200 bales for sale 1st October, and the general opinion entertained that the quantity would be materially increased. The purchases of Cotton since Tuesday last exceeded 2600 packages:—1060 Pernambuco fair quality, in bond, chiefly at 18½. a few good 18¼d. and 19d. 30 fine Sea Island, duty paid 2s. 8d. 159 fair Boweds 14¼d. and 14½d. 40 fair Carricou 19d. and 16½d. a few Grenada 15¼d. and 16d. In consequence of the East India declaration the Bengals offer ¼d. to ¼d. per pound lower than the prices previously obtained. The importations of cotton since our last are—1021 bales Brazil, and 25 bales West India Islands.

Spices.—Spices continue neglected; the purchases since the East India sale have been trivial; no variation can be staded in the currency.

LIVERPOOL, August 14th.

The demand for Cottons has continued very lively throughout the whole of the whole week and prices of most descriptions have advanced ¼d. to ½d. per pound.—The public sales yesterday went off steady; there were sold 160 Demereras 16½d. to 18¼d. for good fair to fine quality, and 259 Barbadoes 13¼d. to 15d. the other states of the week are 4700 Boweds 12½d. to 13¼d. for very ordinary to fair 14d to 15d. for good fair to prime; 1400 Oricana 13½d. to 14d. for middling to fair, 14½d. to 16¼d. for good fair to very good, and one to prime 17d. in bond; 150 Tenessees 12d. and 13¼d. 190 Sea Islands 2d. 3½d. to 2s. 8½d. for fair to good, and a few very fine 3s. 280 Pernams 18d. to 19½d.
